

MORE LINUX UTILITIES

DIFF

- Compare text files
- Options to ignore whitespace, blank lines, case
- Example: `diff file1 file2`
- Shows instructions for changing file1 to file2
- `sdiff` shows side-by-side

PIPING

- Connects stdout of command to stdin of next command
- Same as using stdout redirection to file followed by stdin redirection
- **Usage:** `command1 [arguments] | command2 [arguments]`
- **Examples:**
 - `ls | wc -l`: count number of files
